Dear Parent/Carer

FUTURE READY RESEARCH PROGRAMME – 02 OCTOBER 2026

Following on from the information last year I am pleased to inform you that your child's first one day work place visit, has been selected and will take place at The Lower Thames Crossing Project, on 02 October 2026 at Bouygues TP-Murphy JV, BMJV Compound, Station Road, East Tilbury, RM18 8QR.

As the Bouygues Murphy Joint Venture (BMJV) they are the contractor responsible for delivering the project's twin-bored tunnels, tunnel approaches and community parks. Our work will help create a safer, more reliable and sustainable transport link while enhancing green spaces for local communities.

The student workshop will take place at the Visitor Centre, located within our live construction site. The Visitor Centre is an immersive space designed to bring the Lower Thames Crossing project to life, giving students a unique opportunity to learn about the engineering, environmental and construction challenges involved in delivering a major infrastructure project, while exploring the wide range of careers available within our industry.

Key Information

- **Travel:** Minibus transport will depart the Academy at 9.00 am and return at 3.00 pm (subject to traffic). Students will be dismissed on return; please ensure appropriate arrangements are in place for their journey home on this day.
